"We Serve"

Dear Lion President Edmond,

I am delighted to send a message of congratulations and thanks to the Lions Club of London St James for their service in working with, and supporting, the Chinese Information and Advice Centre and the Chinese community in Westminster and across London.

Today, we can also say a very grateful thanks for the donation of £10,523-00 from Lion Ms Wen Li-Song to Operation Cleft-Lips, a Nepal Project. The donation will enable the Lions Club of London St James to embark on a journey of service which will result in children having access to operations that will give them back their smiles and laughter.

May I thank the members of London St James' Lions Club, and in particular Lion President Edmond for your magnificent efforts. You are one of the newest and, therefore, one of the youngest Lions clubs within our Lions International District 105A, and I wish you all a Lunar New Year filled with health and prosperity.

And in this year of the Dragon, may the year also be filled with confidence, courage, hope, and unity.

Lions don't just envision a better world they make it happen,

With sincere appreciation for all you do to support both your local communities and those further afield.

Best wishes,

"We Serve"

Dear Charter President Lion Edmond

A very Happy Lunar New Year to you all.

Zone Chair Lion Pammy and I are absolutely delighted that you are taking part in the Lunar New Year Community Open Day event at the Royal Airforce museum in London to celebrate the start of the Spring Festival.

The Lunar New Year brings in the year of the Dragon. The Dragon symbolises nobility and authority and the true nobility comes from doing something for those less fortunate than ourselves.

With the kind generosity of Lion Wenli Song, London St. James's Lions Club is showing the true spirit of Lionism by taking this opportunity to support the "Mercy Humanitarian UK – Make Me Smile" appeal with a donation of £10,523. This donation will enable the Charity to support cleft and palate operations for underprivileged children in Nepal and will no doubt bring smiles to many.

Congratulations to you all for supporting such a worthy cause and may the Club grow from strength to strength.

共同见证

MERCY Humanitarian United Kingdom, MHUK, is a London based non-governmental organisation established in 2014.

Our mission is to provide compassionate medical and humanitarian aid to communities in dire need.

We are a sister organisation to Malaysian Medical Relief Society in Kuala Lumpur, Malaysia.

MHUK projects include

- ~conducting cleft lip and palate operations for underprivileged children
- ~raising awareness and providing crucial support on mental health for university students
- ~deploying medical and humanitarian emergency relief to communities affected by natural disasters and conflicts
- ~distributing essential food and non-food items to the homeless and those in need, especially during the winter months

MHUK team conducted its first cleft lip and palate surgeries in Phnom Penh, Cambodia, in January 2020 at the Khmer Soviet Friendship Hospital.

The medical volunteers of 10 (which include surgeons, anaesthetists and nurses) operated on 32 children (after screening 100 children)

They were 15 primary cases with cleft lip and palate, and 17 with revisional surgeries.

MHUK team also provided hands on training for all local team members based at the hospital, sharing their knowledge on infection control aspects.

They looked after the patients pre- and post-operatively, reviewed them through to discharge, and parents were given after care advice.

The team hope their humble mission put smiles on the children faces and their families, something they have been dreaming of for many years.

This will also allow the children to be able to have better speech and communication, to integrate in their society.

MHUK also help to improve their aesthetics and functionality such as the ability to eat and drink; as well as minimize aspirations, chest infections and social isolation.

Each year, up to 250,000 babies are born worldwide with cleft lip or palate or both.

Most of them are from low income families and live in countries with reduced resources.

Approximately 75% of these children's treatments are funded by NGOs.

Cleft Anomalies Surgery Mission at Nepal Cleft and Burn Center, Kirtipur Hospital, Kathmandu, Nepal from 28th February – 8th March 2024.

A significant number of cleft lip and palate cases require secondary surgeries and after care.

The MHUK team will assess a number of children and young adults at the hospital before doing the cleft anomalies surgery.

Additionally the MHUK team will be sharing their knowledge and skills with the local team in Kathmandu.

The three surgeons will be presenting academic teaching on secondary surgeries, its complications and follow up care.

The medical team of 10 volunteers consists of 3 experienced surgeons who has done thousands of cleft and other facial anomaly surgeries, 2 anesthetists, 4 paediatric cleft nurses and 1 General Practitioner who works in acute medicine and in paediatric surgery.

The team will be led by Mrs Ranji Kent, a trustee for MHUK, with 45 years of experience as a paediatric cleft nurse and humanitarian work.
